

Midwest GeoDrill

Drilling Specialists

Drill Company Qualifications

Drilling Specialist with a wide range of experience and expertise on staff to take on any project. Based out of West Michigan, Midwest GeoDrill has been drilling for over ten years, completing 3.7 million vertical feet of drilling. We own and operate all of our rigs and support equipment. The management/ownership are all active employees of the company. Our service team has grown to 34 full-time employees including 9 experienced drillers. We have the capabilities to drill; Geothermal, Cathodic, Caisson, Geotechnical, and all forms of water well from a large capacity production to residential. Our skilled team has a proven track record of completing complex projects that were previously deemed impossible to finish.
